

# Welcome to TeaHouse of Wehmais

## Experience tea and food together

Changing with the seasons, our menu includes tasty à la carte -dishes and lovely baked goods which all are combined with tea. These exciting combinations offer new experiences for our guests. In addition to high-quality tea we also serve tea -based cocktails, beers from Finnish microbreweries and wines around the world.

In our kitchen we use as much organic and local products as possible. You can see this in our menu which includes often organic meat and vegetables from local farms, fish from nearby lakes as well as herbs, mushrooms and berries from local gardens and forests. Due to this we have been granted the right to use D.O. Saimaa we support local - designation. All the dairy products, flours and eggs we use are organic as well as fruits, vegetables and berries if available. P.S. You can also find several organic drinks from our menu.

**Follow us and share your moments #teekesä**
